

Doshion Veolia Water Solutions

ACTIVATED CARBON

**DCN
1000**

DESCRIPTION: **Doshion DCN 1000** is a high quality coconut based granular activated carbon used for the potable water treatment as well as for industrial applications. It can efficiently remove organic matter, color, odor and taste from water.

Properties	
Appearance	Black, odorless and tasteless granules, insoluble in water and organic solvents; burns at red hot without a flame
Manufacturing Base	Coconut Based
Moisture (% Maximum)	5
Hardness (% Minimum)	90
pH	8-11
Iodine Absorption (% Minimum)	1000
Bulk density	0.40 – 0.50 gm / ml
Ash (% Maximum)	7.0
Mesh Size US Sieve	8 x 30 / 12 x 40 Oversize : 15 % Max Undersize: 5 % Max
